

Closed Case Cart/CV36LC-5BFH-S1

Brand: InterMetro

Item#: CASE36-L6S-P

Material: Type 304 Stainless Steel with
Antimicrobial PVC Handle Grips

Dimensions: W45.5" x H40.625" x D28"

Weight: 254.4 lbs.

Built for easy transport, the CaseVue™ case cart is stronger, lighter, and the most ergonomic choice available. Carts can be used wherever contents must be protected from an “unclean” environment, including hospital based or offsite surgery centers.

Advantages provided by the patent pending CaseVue case carts include:

Proficient: Maintenance-free casters reduce the total cost of ownership. Optional clear doors and status flags provide a quick view of cart's status at any time. Cool touch handles eliminate the need for protective cloth to remove cart from cart wash. Biohazard wheel indicates used carts and paper holder conveniently holds pick lists and routing slips.

Clean Design: Cart is designed to be easily cleaned and not retain water. Stainless steel corner handles are encased in a cool touch polymer featuring Microban® antimicrobial product protection.

Less Effort: Premier, quiet, maintenance-free, 6" diameter casters reduce rolling resistance; wide grip handles provide better leverage for steering and swivel lock casters keep the cart on track. Optional upgrades, including 5th wheel steering and swing up handles, provide maximum control in transit.

Quiet: Contoured sides, reinforced top and floor, softer wheels and other noise dampeners, provide a noticeably quieter ride.

Durable: Type 304 stainless steel construction, including stainless steel casters are standard, not an optional upgrade.

Efficient: Metro CaseVue delivers the most storage per square foot to ensure we are making the most of your space. Roller shelves extend further to provide better access.

Configurable: CaseVue provides many standard configurations to select the right cart for your needs, including clear doors, various sizes, solid or wire roller shelves, 5th wheel steering, colored status flags and swing up handle.

CV36LC-NBFH-S1 features:

- All stainless steel construction
- Polycarbonate clear windows sealed with rubber gasket
- Cool touch antimicrobial wide grip handles
- Stainless steel casters
- Security door latch
- Picklist/paper holder
- Door catch
- Swing-up extended handle
- Stainless steel solid pullout roller shelf
- Rotating biohazard indicator wheel to identify cart contents as Biohazard or Clean
- Color Status Flags are also included to provide a quick view of a cart's status at any time
