

Stainless Steel Pharmacy Shelving

Item#: Stainless Steel Pharmacy Shelving

Material: Stainless Steel

Storage capacity for inpatient, outpatient and free-standing pharmacies is a key consideration when choosing what type of storage product(s) you need. Key considerations include

- *Ease of use, maximum efficiency and secure storage of medications and other necessary pharmacy supplies
- *Adherence to USP797/800 requirements
- *Durability, longevity and flexibility
- *And much more!

Storage Systems specializes in all types of pharmacy storage-related products from shelving and cabinetry, to bins and panels and more. Due to the custom nature of products available for pharmacy environments, please call Storage Systems at 888-614-0004 to discuss your pharmacy storage needs.
