

Nezzie Ambulation Device

Brand: Blickman

Item#: BLNZ9000

Dimensions: W'27 13/16 x D'26 3/8

Weight: 77 lbs

- Designed to reside bedside, requiring no more room than a standard IV pole.
- Four casters allow for the unit to pivot 360 degrees in tight spaces such as the bathroom.
- Wrap-around adjustable handle design accommodates individual patient size and contributes to patient safety and confidence during ambulation.
- Antimicrobial paint and the ability to dedicate one patient at a time provide added infection control.

Standard Features

- Powder-coated antimicrobial gray paint
- Two retractable IV poles with four hooks
- Two wrap-around adjustable and retractable handles
- Front Device Hanger
- 4" total lock swivel casters with brakes

Optional Features

- Different powder-coated antimicrobial paint colors
- 2 hook or 8 (rake) hook configurations for
